

## Heavy Duty Isolator Switch

#SI22010

www.qvee.com.au

### DESCRIPTION

Heavy duty battery isolator switch.

Features a red removable key and a rubber cap.

Key is only removable in the OFF position to prevent accidental & unauthorized ignition. 300A continuous current.

### FEATURES

- Suitable for 12/24 Volt applications
- 300A @ 12V / 150A @ 24V continuous current
- 1000A intermittent @ 12 Volt
- Weatherproof rubber cap. Applicable when switch is not in use
- Bronze tin plated brass terminals for optimal connection

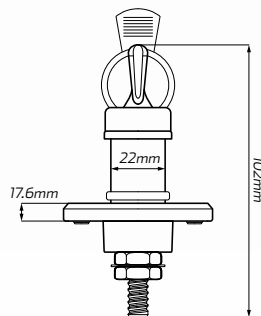

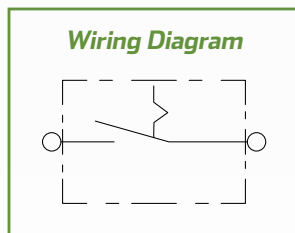

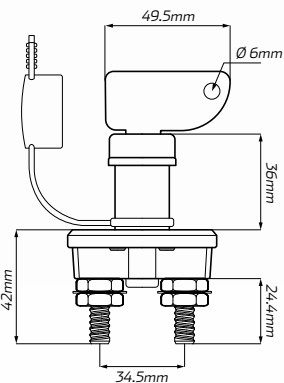

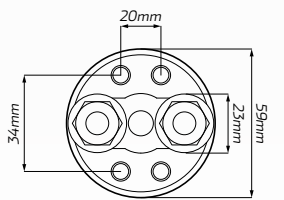

#### Comprises:

- Red removable key
- Weatherproof rubber cap (removable)
- Lock nuts & washers
