

ATO Blade Fuse Boxes

www.qvee.com.au

DESCRIPTION

Fuse box to suit standard (ATO) blade fuses.

Features a transparent cover and 6.3mm blade terminal connections. Amperage rating of 15 Amps per circuit.

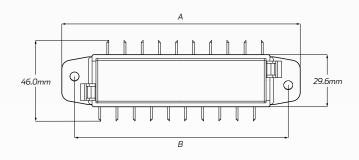

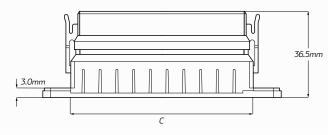

TECHNICAL SPECIFICATIONS

- Maximum voltage of 32V DC
- Fuses are not included
- Bronze tin plated terminals
- Available in 4/6/8/10 circuit
- Nylon PA 66 Fibre base with polycarbonate cover

| Voltage | • 32 Volt DC max | |
|-------------------|---|--|
| Current Rating | • 15A per circuit | |
| Base Material | • Nylon PA 66 + 15% fibre | |
| Base Colour | • Black | |
| Cover Material | Clear polycarbonate (included) | |
| Contact Material | • Phosphor bronze tin plated (6.3mm) | |
| Terminals to Suit | • Standard (ATO) blade fuses (not included) | |

DIMENSIONS

Please refer to table below for full measurements

PART NUMBERS

| Part Number | No. of Fuses | Max. Current (Block) | Dimensions (A x B x C) | Descriptions |
|-------------|--------------|----------------------|-----------------------------------|---|
| FB1004 | 4 fuses | 30 Amp max | 80mm (A) x 65mm (B) x 49mm (C) | 4 way standard blade fuse box with cover |
| FB1006 | 6 fuses | 45 Amp max | 100mm (A) x 85mm (B) x 69mm (C) | 6 way standard blade fuse box with cover |
| FB1008 | 8 fuses | 60 Amp max | 120mm (A) x 105mm (B) x 89mm (C) | 8 way standard blade fuse box with cover |
| FB1010 | 10 fuses | 90 Amp max | 140mm (A) x 126mm (B) x 109mm (C) | 10 way standard blade fuse box with cover |
